Learning Sparks

Your work force is your single biggest investment. In today's fast paced corporate environment, it is not enough to provide a breadth of learning resources and have employees use them as they can. Time is too valuable and resources are stretched too thin. It is imperative that your team gets the information it requires in a way that matches the urgency of the need.

At the same time, your IT work force sits in varying places on the Oracle learning curve. Meeting the needs of your entire team is therefore complex. SkillSoft's Oracle KnowledgeCenter introduces an array of resources designed and chosen to challenge and motivate every learner on your team.

This one stop portal allows learners to gain knowledge through articles, courses and online books, but more than that, each KnowledgeCenter includes hands-on Practice Labs allowing your IT professional to learn and use Oracle skills in a real-time environment. The Oracle KnowledgeCenter provides resources for:

- Oracle 9i
- Oracle 11g, 11i, 10g
- Oracle Certification

A Focus On Performance

What is a KnowledgeCenter?

A SkillSoft KnowledgeCenter is a single, focused interface where your IT professionals can receive instant and ongoing skill development and performance support. The KnowledgeCenter offers a breadth of targeted learning resources including formal learning paths; informal, on-the-job learning; and a range of other resources. These tools and resources are carefully selected by SkillSoft subject matter experts and presented in a user-friendly environment that allows the learner instant access to trusted content.

Reference Area

The Reference Area of the Oracle KnowledgeCenter includes:

- View selected or all Books24x7® titles that pertain to Oracle
- Search & Learn access to all assets in the KnowledgeCenter

Practice Zone

The Practice Zone of the Oracle KnowledgeCenter provides an opportunity to test Oracle skills using Practice Labs. Each lab is delivered as a course containing Oracle-based exercises.

1Z0-050 Oracle Database 11g - New Features For Administrators

Complete each course in the recommended order to create a comprehensive learning experience.

Learning Path

- Oracle Database 11g: Installation and Upgrade Enhancements
- Oracle Database 11g: Storage Enhancements
- Oracle Database 11g: Change Management Overview and SQL Plan Management
- Oracle Database 11g: Database Replay and Automatic SQL Tuning
- Oracle Database 11g: Intelligent Infrastructure Enhancements
- Oracle Database 11g: Performance Enhancements
- Oracle Database 11g: Partitioning and Storage-Related Enhancements
- Oracle Database 11g: Using RMAN Enhancements, Flashback and LogMiner
- Oracle Database 11g: Diagnostic Enhancements and Using the Data Recovery Advisor
- Oracle Database 11g: New Security Features
- Oracle Database 11g: SecureFiles and Miscellaneous New Features

Whether you want to learn about Oracle9i, 10g, 11i, or 11g, or are interested in certification, there's a structured learning roadmap specially designed to meet your needs. To access a roadmap and get straight to your training program, select a link in one of the three collections below.

To learn about Oracle9i, start here

Find out about the new features introduced with Oracle9i Database.

Oracle9i Database - New Features I

Learn about the advanced features introduced with Oracle9i Database.

Oracle9i Database - New Features II

Explore the fundamentals of Oracle9i Database architecture and management.

Oracle9i Database Fundamentals - Architecture and Management

Get an overview of data storage and management in Oracle9i.

Oracle9i Database Fundamentals - Managing Data Storage

Learn how to manage access in Oracle9i databases.

Oracle9i Database Fundamentals - Managing Database Access

Find out about Oracle9i database administration.

To learn about Oracle 11g, 11i, and 10g start here

Oracle 11g

Learn the concepts and components of Oracle Database 11g and recognize how to retrieve information from it using SQL.

Oracle Database 11g - SQL Fundamentals I

Get an overview on basic SQL language skills by learning how to control privileges at the object and system level.

Oracle Database 11g - SQL Fundamentals II

Learn about PL/SQL in 11g and the benefits of this powerful programming language.

Oracle Database 11g - PL/SQL Fundamentals

Learn to develop, execute, and manage PL/SQL stored program units such as procedures, functions, packages, and database triggers.

Oracle Database 11g - Developing Program Units

To prepare for Oracle certification, start here

Oracle 11g

Oracle Database 11g: Administration Workshop I

1Z0-052

Oracle Database 11g: Administration Workshop II

1Z0-053

Oracle Database 11g: New Features For Administrators

1Z0-050

Oracle Database 11g: SQL and PL/SQL New Features

1Z0-001

Oracle Database 11g: SQL Fundamentals I

1Z0-047

Oracle Database 11g: SQL Fundamentals II

The Oracle KnowledgeCenter includes a broad selection of resources to meet different learning needs.

Learning Sparks

Learning Sparks are innovative, instructional products that engage learners in dynamic, highly interactive scenarios. Utilizing learning techniques such as first-person video narration, drag-and-drop network simulations, and multiple choice questions with feedback, Sparks are a concise new learning mode that provide opportunities to practice and reinforce key targeted IT skills.

A solution for everyone

An inherent challenge of training your work force is the need to train people of many skill levels and varied levels of proficiency. SkillSoft's Oracle KnowledgeCenter was created to address the various needs of your entire IT work force, from the novice through to the advanced IT professional. Your learners can enter the KnowledgeCenter looking for beginner information on Oracle, intermediate information for the experienced developer or advanced information for those seeking performance support, work support or updated knowledge on a particular aspect of the technology, or those pursuing an Oracle certification.
