Compliance Impact Series

High-impact compliance training through concise, compelling video vignettes.

The Compliance Impact Series includes high-quality video vignettes less than five minutes in length, ideal for ad-hoc refresher training or as an alternative to full-length courses for reinforcing critical compliance topics.

### Complementing full-length compliance solutions

In keeping with the mission of helping organizations foster a culture of self-governance and corporate compliance, the Compliance Impact Series contains content strategically aligned with essential compliance issues.

The Compliance Impact modules enhance a company's overall compliance training solution by providing an alternative to Skillsoft's standard course format. Digestible in under five minutes, each Compliance Impact module acts as an ideal follow-up or refresher training experience, or as a singular, stand-alone training event.
